

HP's environmental commitment

www.hp.com/environment

Did you know?

- To date, HP has recycled more than 920 million pounds of hardware and HP print cartridges globally.
- The HP Planet Partners return and recycling program keeps print cartridges out of landfills. More than 143 million HP LaserJet and HP inkjet print cartridges have been returned and recycled worldwide since the program began in 1991, representing a weight of nearly 260 million pounds.
- HP makes it easy for you to participate-no matter where you live. The HP Planet Partners return and recycling program for HP printing supplies extends to customers in more than 41 countries, regions and territories.
- Plastics and metals from returned and recycled HP print cartridges are used to make a range of everyday new products such as automotive parts, clothes hangers, fence posts, microchip processing trays, serving trays, shoe soles and spools.

HP offers its PurchasEdge program members points towards free merchandise for recycling through HP Planet Partners.

For more information and to sign up, go to www.purchasedge.com. Current members should click on the "Earn points for recycling" link after logging in.

Award-winning environmental stewardship.

HP has received numerous awards in recognition of its environmental programs and efforts.

Recent awards include:

- 2007—The American Forest & Paper Association (AF&PA) has named HP the winner of its 2007 AF&PA Business Leadership Recycling Award. The award recognizes a company that promotes paper recovery and recycling through educational, innovative and cost-effective workplace programs.
- 2006—HP joined the U.S. Environmental Protection Agency's Green Power Partnership at the corporate level and became the 16th largest Fortune 500 company to purchase renewable energy.
- 2006 - HP ranked 15th globally and 1st in its category in Tomorrow's Value, the 2006 Global Reporters Survey of Corporate Sustainability Reporting.
- 2006 - HP ranked 22nd overall in the Accountability Rating, the first global index that evaluates how well the world's 100 largest companies account for their impacts on society and the environment.

HP's annual Global Citizenship Report is available at www.hp.com/go/report

HP designs for the environment.

HP provides inventive, high-quality products and services that are environmentally sound—from the very first stages of product design through manufacturing and distribution, customer use and end of life. We strive to design our products so they are safe to use, minimize energy and natural resource consumption, and enable end-of-life recycling.

HP's Design-for-Environment (DfE) initiatives are incorporated into product development by the Product Stewardship Network. This network of development teams identifies, prioritizes and recommends environmental innovations, establishing company-wide environmental design standards for new products. These standards address design requirements that encompass the entire product life cycle.

For example:

- HP's redesigned printer cartridge packaging for North America will reduce greenhouse gas emissions by an estimated 37 million pounds in 2007 – the equivalent of taking 3,600 cars off the road for one year.¹ The emissions savings are the result of smaller, lighter packages that both reduce the total carbon footprint of each cartridge and the truck and freighter transportation traffic required to ship them. Newer packaging also contains more recyclable and recycled content.
- Since 1992, HP has reduced the average number of parts used in monochrome HP LaserJet print cartridges by 53 percent and reduced the number of plastic resin types by 69 percent, thus improving recyclability of HP LaserJet print cartridges.
- No HP print cartridges returned and recycled through Planet Partners are sent to landfills.

Help us make a difference. Participation in the HP Planet Partners return and recycling program is free and convenient. See the table below for specifics about how and where to return HP cartridges for recycling.

Service feature	HP inkjet print cartridge recycling	HP LaserJet supplies recycling	HP and non-HP hardware recycling
More information	www.hp.com/recycle or call 1-800-340-2445	www.hp.com/recycle , see instructions and shipping label in new product box, or call 1-800-340-2445	Visit www.hp.com/recycle or call 1-888-485-1849.
How to return one product	Please check inside your HP inkjet print cartridge box for a postage-paid return and recycling envelope, or request a postage-paid envelope from www.hp.com/recycle .	Please check inside your HP LaserJet print cartridge box for a postage-paid return and recycling label, or request or print a postage-paid label from www.hp.com/recycle .
